Registering to Vote While Unhoused

*Serving the Voters of Kansas
City within Jackson County*

Your Vote is Your Voice!

Registering to vote during a period of houselessness can be an intimidating task. However, KCEB wants to make this process as easy as possible. Here are a few suggestions for getting or staying registered when you have no current address:

1. Many shelters will allow their address to be used on an unhoused voter's registration. Just ask!
2. Register to vote at a state building, election office, or public library. List your address as the shelter or location which has agreed to accept mail on your behalf.
3. If you do not currently possess an ID, you may register using the MO Voter Registration Postcard application, which does NOT require ID to be shown at the time of registration.* These are available at all KC Public Libraries and the KCEB Election Office.

****A valid ID will need to be obtained before you will be able to vote.***

4. Be sure to collect your Voter Notification Card from the location at which you are receiving mail. This card is sent out one week before each election and will provide you with the name and address of your polling place.
5. While it is encouraged that you vote at your designated polling location found on your Election Notification Card as it will be within close proximity to the address you used to register, all KCEB polls are considered "Central Polls".

What this means is that if you are unable to find transportation to your designated poll, you are able to vote at any poll in KCEB's jurisdiction using the Ballot Marking Device. A standard pre-printed paper ballot will only be available at your designated poll.

Pictured above is the Ballot Marking Device. A blank ballot is inserted into it, you make your selections, and your voted ballot is printed out. You then place your voted ballot into the ballot box.
